

CHARCOAL WORKSHOP

february
27-28 2010

instructed by **LAURIE
SPONAGLE**

Join Laurie in an exciting, hands-on weekend workshop that will explore charcoal techniques in a representational manner.

Students will experiment with different varieties of charcoal, practice application techniques on an assortment of charcoal papers and other supports, and learn to use tools associated with the medium. The effects of light and shadow shall be investigated and applied to both still life composition, and the live model.

Demonstrations, lectures, and individual guidance provided by Laurie will assist students at all levels in developing their skills with charcoal. Topics covered in the workshop include basic drawing, proportion, composition, value contrasts, photography reference, use of light - and much more! Some drawing experience is recommended, but not required for this workshop.

WORKSHOP LOCATION
OTTAWA

2445 St. Laurent Boulevard
(corner of St. Laurent Blvd & Conroy Road)
