ABOUT MONART

The Monart system of drawing shows how to perceive our visual world in terms of 5 basic elements of shape. Our students learn the skills necessary to translate perceptions on to paper. This method has achieved phenomenal results with both children and adults. Since 1979, Monart has been taught using Mona Brookes best selling book "Drawing with Children". By using this approach everyone can learn to draw and feel proud of his or her results. All our classes create a nurturing environment in which self-expression and creativity flourish. Each lesson plan is designed with enough structure to ensure success as well as freedom to be creative.
